premonition

01 touch

02 river of light

03 nettle

04 touch (spider-like)

05 river of light (reload)

06 touch (ill-starred)

## river of light

lips down  
the fashion of the age  
push the sore  
and the sacred  
pulled up  
to take another drag  
now the aimless  
have been faking  
lie down  
and take another hit  
strip the flagpole  
give up  
i bit straight through the tongue  
of an angel

what lurks in the hollow of a zealous haste  
words drying in the heat of a last embrace  
the first of timid steps long taken  
frozen in the sights of a chemical agent  
a bond that's stretched and broken  
worn and tethered in the wind  
this world is incomplete  
this world is incomplete

five years swimming  
in the river of light  
to find a semblance of meaning  
disappearing  
we were born swimming  
in a river of light  
never gave up the fight  
never told our story

cough up  
the splinters from the wound  
didn't see me  
don't poke dont spill  
just save a souvenir  
for the memories

the caution lost bred sad conclusions  
remain beneath the subterfuge  
this world is incomplete  
i know this

five years swimming  
in the river of light  
to find a semblance of meaning  
disappearing  
we were born swimming  
in a river of light  
never gave up the fight  
never told our story

# nettle

save your meat  
for some sweet young lost gamine  
buy your soul  
then trade the stocks for cheap  
big stakes don't break  
suck it in I can't wait  
this never was your way  
you always leave a mark that won't fade

shed your flicker form  
break it down  
how much will it take  
to suck the nettle out

don't spill the lies  
let it leak—got to make it last  
drop your bomb  
just to make a bigger splash  
shift down, shook down  
push to watch it break  
this always was your way  
these blisters never fade  
never go away

shed your flicker form  
break it down  
how much will it take  
to suck the nettle out

and where your chances lay  
stiff and splintered on the ground  
I have just begun  
to tear you down
